

MOHAN RAJ

MERN Stack Developer

☎ +91-6369698340 ✉ codemohanraj@gmail.com [in](#) [Linkedin](#) [GH](#) [GitHub](#) [🌐](#) [Mohan.dev](#)

Summary

MERN Stack Developer experienced in building full-stack web apps with MongoDB, Express.js, React.js, Node.js, RESTful APIs, JWT authentication, Mongoose, and Redux. Delivered 2 live projects with secure auth, optimized queries, and responsive UI.

Skills

Programming: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Redux, React Router, React Hooks, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, Middleware, MVC

Database: MongoDB, Mongoose

Tools: Git, GitHub, Postman, Axios, npm, Vercel, Render

Concepts: JWT Authentication, bcrypt, CRUD Operations, async/await, Responsive Design, REST, JSON

Experience

Web Development Intern

June 2025 – July 2025

MERN Stack Development

Tools Used: MongoDB, Express.js, React.js, Node.js

- Engineered 20+ RESTful APIs using Node.js, Express.js, Mongoose with middleware validation, supporting 500+ users.
- Secured APIs with JWT, bcrypt, jsonwebtoken and role-based access control; reduced response time 50% via MongoDB indexing.
- Built mobile-first UIs with React.js, Tailwind CSS, and component-based architecture ensuring cross-browser consistency.
- Implemented search, filter, and cart using React Hooks (useState, useEffect, useContext) and REST APIs via Axios with async/await.

Projects

E-Commerce Web Application | MERN | LIVE | GITHUB

December 2025 – February 2026

- Built full-stack MERN e-commerce platform with product listing, cart management, order processing, and protected routes via React Router.
- Secured app using JWT authentication, bcrypt password hashing, jsonwebtoken session management, and middleware-protected API routes
- Optimized MongoDB queries via Mongoose indexing and lean queries, cutting data retrieval by 50% deployed on Render with dotenv config.

Movie Finder | REACT.JS, REST APIs, HTML, CSS | LIVE | GITHUB

October 2025 – December 2025

- Built dynamic movie search app using React.js and TMDB REST API via Axios with debounced search input and React Router navigation.
- Implemented real-time search with debouncing, optimized API calls using async/await, reducing unnecessary renders and network requests.
- Managed state using React Hooks (useState, useEffect, useContext); deployed on Vercel with automated CI/CD via GitHub integration.

Certifications

- **Advanced MERN Full Stack Developer – Expertisor Academy (2026):** Covered full-stack deployment, authentication flows, REST API design, and scalable MongoDB schema architecture.
- **Prompt Engineering – Expertisor Academy (2025):** Learned structured prompt design, LLM interaction patterns, and AI-assisted development workflows.
- **Web Development – Make Vision AI (2025):** Covered HTML5, CSS3, JavaScript fundamentals, responsive design, and DOM manipulation.

Education

B.Tech Information Technology

Graduated: 2026

P.M.C College of Engineering and Technology, Hosur

CGPA: 7.8 / 10
